

My Skills

Software Development

- Agentic AI, LLM's, WorkFlow Automation
- C#, Asp.Net, VB.net
- HTML, CSS, React, NextJS, PHP, Laravel
- Database SQLite, MySQL, MSSQL
- Embedded Systems, Arduino, PLC
- Version Control, Git, Github, Azure DevOps

Computer Hardware and Software

- Office Tools, Excel, Word, Powerpoint
- Computer Hardware and Software Installation
- Network configuration, Router and Switch
- Server Configuration, Virtualization, Vmware
- AutoCAD 2D & 3D

Industrial Automation

- PLC Programming, Allen Bradley
- SCADA HMI, FactoryTalk, Wonderware, Ignition
- Factory I/O Check, Factory Commissioning
- FAT (Factory Acceptance Testing)

Management

- Project Management and Supervision
- Project Scheduling and Estimation
- People Management

Language

English Filipino Bisaya

Elektra Street. Abu Dhabi UAE

Dilson Torrefiel

Computer Engineer | Programmer

Summary

Computer Engineer based in Abu Dhabi, seeking an IT Systems, Infrastructure and Software Developer role.
A proactive problem solver dedicated to maintaining robust system performance, continuous learning, and contributing to the digital transformation goals of a forward-thinking organization.

Education

2019 - 2020 University of Cebu - Main

Bachelor of Science in Computer Engineering

- Core Competencies: Advanced Programming & Software Design
- Awarded Academic Excellence in Software Development and Embedded Systems.
- Dean's List | GPA 1.45

2008 - 2009 Cebu Normal University

Diploma in Professional Education

- Professional Education with extensive training in fundamental teaching principles.

2004 - 2007 CITE Technical Institute Inc

Electro-mechanical Engineering Technology

- Core Competencies: AutoCAD Design, Electromechanical Systems, Machine Operation & Maintenance.
- Academic Scholar

Work Experience

2021 - 2026 Alliance Software Inc

Supervisor Software Development

- Led developers in optimizing an Angular / TS web app, increasing user efficiency.
- Developed C#/VB.NET desktop applications, ensuring seamless system integration.
- Mentored junior developers and conducted code reviews to drive a culture of continuous improvement.

2017 - 2020 Tec Square Solutions Inc

Team Lead Automation & Control Systems

- Led engineering teams in designing and integrating emerging technologies into legacy systems.
- Spearheaded HMI development, creating standardized control faceplates for digital and analog devices.
- Architected IT infrastructure**,** including Windows server maintenance and secure remote access for SCADA monitoring.
- Collaborated cross-functionally to gather requirements and deliver high-quality automation solutions on schedule.

2011 - 2017 Tec Square Solutions Inc

Draftsman Automation & Control Systems

- Develop 2D & 3D CAD designs for industrial automation projects.
- Focus on detailed instrumentation layouts for Tanks, Pressure Vessels, Pumps, Valves and Sensors for a smoother installation and piping route.
- Create comprehensive design documentation, Collaborate with cross-functional teams to ensure designs meet project requirements and industry standards.

2007 - 2011 CITE Technical Institute Inc

Teaching Staff Academics

- Instructed classes in basic computer literacy and AutoCAD 2D & 3D design.
- Evaluate student performance and provided actionable feedback to support skill development.
