# Dilson Torrefiel

Software Developer

## About Me

I'm a **Computer Engineer** located in Abu Dhabi, seeking an **IT / Software Development** role. Offering a versatile toolkit in **Windows Desktop** and **Web application development**. A **proactive problem-solver** dedicated to continuous learning and contributing to the digital transformation goals of a forward-thinking organization.

## Education

Bachelor of Science in Computer Engineering

**2019 - 2020 | University of Cebu - Main**

- **Core Competencies:** Advanced Programming & Software Design
- **Awarded Academic Excellence** in Software Development and Embedded Systems.

Diploma in Professional Education

**2008 - 2009 | Cebu Normal University**

- **Education Graduate** with extensive training in fundamental teaching principles.

Electo-mechanical Engineering Technology

**2004 - 2007 | CITE Technical Institute Inc**

- **Core Competencies:** Electrical Systems, Electronics, and Machine Operation & Maintenance.
- Academic scholar

## Work Experience

**Supervisor | Software Development**

2021 / 2026 - Alliance Software Inc

- **Led developers** in optimizing an Angular / TS web app, increasing user efficiency.
- **Developed C#/VB.NET desktop applications**, ensuring seamless system integration.
- **Mentored junior developers** and conducted code reviews to drive a culture of continuous improvement.

## My Skills

- Windows Desktop Application C#/VB.net/SQLite/MySQL
- Web Development HTML5/CSS3/Bootstrap/Javascript
- Database SQLite, MySQL, MSSQL
- Arduino Embedded Systems
- Source Control Git / Github
- 2D & 3D CAD Design
- PLC Programming, ABB
- SCADA FactoryTalk/ Wonderware/Ignition

## Language

English 80%

Filipino 90%

Bisaya 90%

### Team Lead | Automation & Control Systems

2017 / 2020 - Tec Square Solutions Inc

- **Led engineering teams** in designing and integrating emerging technologies into legacy systems.
- **Spearheaded HMI development**, creating standardized control faceplates for digital and analog devices.
- **Architected IT infrastructure,** including Windows server maintenance and secure remote access for SCADA monitoring.
- **Collaborated cross-functionally** to gather requirements and deliver high-quality automation solutions on schedule.

### Drafsman | Automation & Control Systems

2011 / 2017 - Tec Square Solutions Inc

- **Develop 2D & 3D CAD** designs for industrial automation projects.
- **Focus on detailed instrumentation layouts** for Tanks, Pressure Vessels, Pumps, Valves and Sensors for a smoother installation and piping route.
- Create **comprehensive design documentation**, **Collaborate with cross-functional teams** to ensure designs meet project requirements and industry standards.

### Teaching Staff | Academics

2007 / 2011 - CITE Technical Institute Inc

- **Instructed classes** in basic computer literacy and **AutoCAD 2D & 3D** design.
- **Evaluated student performance** and provided actionable feedback to support skill development.
